OSAGES'S
PREMIER SKILLED
NURSING AND
REHABILITATION
FACILITY.

PHYSICAL THERAPY PROFESSIONALS FOCUSED ON YOUR REHABILITATION GOALS.

The Physical Therapist works to improve your ability to move your body, to increase your strength, and to maximize your ability to move within your environment. Following a thorough evaluation by the licensed Physical Therapist, an individual treatment program is established in conjunction with your physician.

SPEECH PATHOLOGY PROGRAMS DEVELOPED FOR INDIVIDUAL NEEDS.

Speech-Language Pathologists provide assessment and specialized treatment programs for overcoming speech, language, comprehension, cognitive (thinking) or voice disorders. SLPs are trained in treating swallowing disorders, known as dysphagia, a common problem in the elderly.

OCCUPATIONAL THERAPY HELPING YOU GET BACK TO YOUR LIFE.

Occupational Therapy refers to the "occupations of life" which are the tasks of everyday living. OTs assist you in gaining independence with the basic skills required to take care of yourself. These "Activities of Daily Living" (ADLs) include feeding, grooming, dressing, bathing, and home-making skills.

We treat a range of conditions.

- Total Joint Surgery
- Spinal Fractures
- Muscle Imbalances
- Post Surgical Rehab
- Arthritis
- Osteoporosis
- Neurological Disorders
- Falls & Balance Loss
- Stroke Recovery
- Pain
